PERSONAL STATEMENT

Highly motivated final year BSc Computer Science student at the University of Mauritius, eager to launch my career as a Full-Stack Engineer. I offer a unique blend of practical skills across full-stack development (MEAN stack, Angular), mobile applications (Flutter), applied AI/Machine Learning (Python, TensorFlow), and cybersecurity, complemented by hands-on internship experience at Accenture using tools like Qualys. I thrive on building complex projects independently, such as the Pixelaplast platform and an AI-powered gesture recognition system. I'm seeking a challenging role where I can contribute my diverse technical abilities, collaborative spirit, and passion for innovation to a dynamic team.

CAREER SUMMARY

Level
Student

Years at Selected Level
1 - 3 years

Level of Education
Bachelor's degree / licence Bac+3
